

EZ Shelving

STORAGE SOLUTIONS

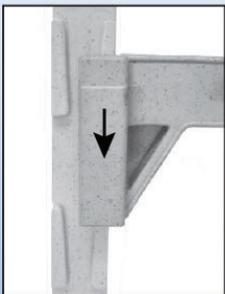

HACCP Compliant

- The Smooth polypropylene surface is easy to wipe clean.
- Each EZ Shelving component is dishwasher safe.
- The ease of cleaning makes it easier to ensure a HACCP compliant operation with a hygienic storage area.

Strong and Durable

- Posts and traverses, the weight bearing components are made with a steel core providing strength and durability to last.
- Easy to assemble and adjust.
- Build a shelving system to suit your requirements.
- EZ shelving is available in two post heights - 1600mm and 1800mm.
- EZ shelving is available in two shelf widths - 455mm and 610mm.
- Corner connectors and mobile units are also available.

EZ to assemble!

EZ to clean!

Mobile unit

Rust Free

- For use in any area.
- EZ Shelving won't rust when washed or placed in a wet or humid area.
- EZ Shelving is ideal for walk in refrigerators, freezers, dry stores and any other areas shelving is required.

EZ Shelving

STORAGE SOLUTIONS

EZ AND QUICK ASSEMBLY

Equipment you will need:

- Rubber mallet
- Adjustable spanner

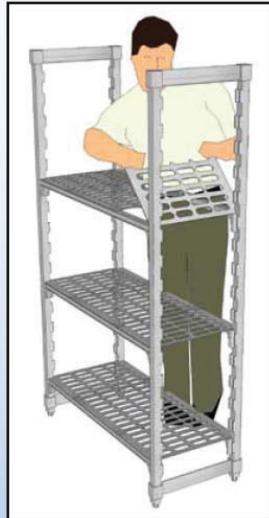

Position 1

- Remove the posts and post connectors from the packaging.
- Connect the posts with the post connectors. Note the arrows on the connectors and please ensure the arrow always points to the ground when assembling.

Position 2

- Remove the traverses from the packaging.
- Match the dovetail connector on the post with the dovetail connector on the traverse. Slide into position.
- Gently tap them firmly into place with a rubber mallet (do not use a metal hammer as this may damage the unit).
- Repeat the process until all the traverses are in position.

Position 3

- Remove the shelf plates from the packaging.
- Position the plates on the traverses.
- Please ensure the notched shelf plates fit snugly against the poles.
- Ensure unit is level prior to loading by adjusting the feet and place into position.
